

TRACS Release 202B Industry Specifications Addendum 2.0.2.B Release/Version Number Update

Release 2.0.2.B is driven by the need to conform to the New Voucher Forms and comply with the voucher HUD 4350.3 REV – 1 requirements. The requirements necessitated modifications to the MAT record format of the *Voucher/Payment System*.

Tenant functionalities introduced in TRACS Release 2.0.2.B *do not* require modifications to the MAT record format of the *Tenant System*. However, in the interest of consistency and the desire to avoid retaining multiple TRACS release version numbers (i.e. Tenant – 201B, Voucher/Payment – 202B), version number 2.0.2.B will refer to **both** MAT Tenant and MAT Voucher/Payment record formats.

Appendix A, Chapter 6, “TRACS MAT Voucher/Payment System Record Formats and Definitions”, Field # 2, of the Industry Specifications currently posted on the Web displays the correct format of the 202B release/version numbers. In the MAT Guide, field # 2 of the MAT Tenant System Record Formats listed below will be updated to include the information displayed in Figure 1.

- TENHR
- MAT10
- MAT15
- MAT40
- MAT65
- MAT70
- TENND
- TENER
- TENTR

MAT Tenant System Record (Field # 2 – New Format)

MAT Field	Note	Field Name	Start Position	Field Length	Field Type	Definitions and Edits
2	M	Release/Version Number	6	7	Alphanumeric	Value must equal “2.0.2.B.” TRACS Release = 2.0.2. TRACS Version = B
